The distinction between the tramp and the hobo is that the hobo, while he is a knight of the road, is also capable of human service. He will work and he refuses to pilfer. He is on the move because he has to be. He is penniless, without friends and without means of support. The law yags him and makes him move on, but he refuses to let himself be called a tramp. The real distinction in the last analysis is that the tramp is without pride. The hobo has enough pride to refuse to be called a tramp. Seat the Post-Intelligencer.

Of course money talks! But it has to be present, not promised, to talk loud enough to be noticed. Making a weekly deposit in the Bank of Hawaii will soon cause you to have a big enough total for use in taking advantage of certain good business opportunities.

Why should you invest up-to-date money in out-of-date clothes? Where's the sense in being a back number? While clothes don't make the man they help a mighty lot—that is, clothes that are sold at the Clarion, the Alfred Benjamin brand. Do you gather the graceful "hang" of their suits? Do you sense the easy "fit"? Do you cotton to the perfect collar "drop" to these clothes? It's in every suit that the Clarion sells.

Gaynor as a Critic.
The late Mayor Gaynor of New York, as all the world knows from his letters, was a subtle critic, and at a luncheon at the Century Club, discussing a novelist who had begun well, but had degenerated into the lowest type of "beat seller," Mayor Gaynor said:

"This scribbler's whole biography could be put into two questions and answers thus:

"How did he commence writing?"
"With a wealth of thought."
"And how has he continued?"
"With a thought of wealth."—Washington Star.

ELEANOR WILSON WILL

APPEAR IN BIRD PLAY
New Yorkers Will Have an Opportunity to Witness Her Acting

(By Latest Mail)
NEW YORK.—New Yorkers will have an opportunity soon to see Miss Eleanor Wilson, daughter of the president, display her talent as an actress. The play, "Sanctuary, a Bird Masque," in which she took a leading part at Cornish, N. H., last summer, is to be produced here, probably at the Hotel Astor, February 24.

It is understood that the president was averse to his daughter appearing in a public performance, and was won over only recently.

At Cornish the play was produced by a colony of artists, authors and naturalists, for the benefit of the sanctuary for birds in Meriden, N. H., organized by Ernest Harold Baynes. The proceeds will likewise be for the sanctuary.

Provided, further that in case any steamer enters three of the above named ports during one continuous trip, fifteen per cent shall be deducted from the foregoing schedule of fees; and for the purpose of computing said fees, one call at any of the above named ports and two calls at any one of the other ports shall be considered as calling at three ports.

II. All sailing vessels shall pay fees for pilot services at such ports amounting to two cents per gross ton upon the registered tonnage of such vessel, for entering and; also for departing from each such port the minimum charge each way to be Twenty-five Dollars (\$25.00).

III. Subject to the restrictions aforesaid, any vessel which shall enter or depart from any of the above named ports without a pilot shall pay one-half pilotage fees.

VII. For anchoring any vessel off the above mentioned ports, the fee shall be Twenty Dollars (\$20.00); provided, however, that when any vessel so anchored off any such port is later brought into port under the charge of a pilot, the fee for anchoring off port shall be Ten Dollars (\$10.00).

VIII. For detention of pilot on board a vessel more than twenty-four hours, the fee shall be Ten Dollars (\$10.00) per day or fraction thereof.

IX. The displacement of each steamer shall be computed in accordance with the Builder's Displacement Scale, and for this purpose said scale shall be divided into fractional parts of a foot equaling three inches. In case a satisfactory displacement scale is not furnished by the vessel or her authorized agents, her displacement shall be computed by the method known as "Simpson's Rules," using the coefficient of 7, e. g. length times breadth times draft times 7 divided by 35.
